

Mental Health First Aid Training for students

The Mental Health First Aid Training course has become highly sought after, as it gives people the skills to identify early signs of emerging mental health issues.

Course participants learn about the signs and symptoms of the common and disabling mental health problems, how to provide initial help, where and how to get professional help, and how to provide first aid in a crisis situation.

This is a 12 hour course which we are delivering over 2 days.
The course dates are: **12th & 19th October 2018**

Students can find out more information about this course and how to register by contacting the UC Medical & Counselling Centre on 6201 2351 or visiting us in Building 1 Level B. Contact: Sam Smith — sam.smith@canberra.edu.au
